# CatonLloyd AV: Connecting Your Business

# Professional Remote Working Systems

CatonLloyd understands how impactful bringing people together can be.

Through our unique design, installation and commissioning of professional video conferencing, remote working and meeting room systems, your teams connect, communicate and collaborate clearly to establish stronger working relationships which develop and grow businesses.

CatonLloyd works with leading technologies to design, supply, install and maintain reliable video conferencing and remote working systems in your business.

From meeting rooms and training facilities, to town-hall spaces and remote working systems which enable your team to work from anywhere, we'll connect your organisation for a budget which presents excellent value.

**“** From the initial delivery of a project scope right through to handover and sign-off, I can trust CatonLloyd to complete all works on schedule and to an exceptionally high standard. Their technical expertise and experience mean every aspect is comprehensively managed, and the team uses their initiative and extensive skills to investigate and problem-solve any issues on site. I thoroughly enjoy working with CatonLloyd and highly recommend them as a professional, dynamic AV team.

**Steven Pedrick, Project Manager**

## Complete Remote Working for Business

The world is changing the way we work. Whether connecting teams nationally or internationally, innovative remote working and video conferencing technologies from CatonLloyd bring a fresh approach to your business, delivering everything your people need to work efficiently, wherever they are.

Our team enjoys extensive commercial experience, designing and installing meeting rooms, training suites, video conferencing and collaboration spaces for businesses throughout the UK and around the world. Supporting popular systems including Microsoft Teams, Zoom and Webex, your team will access reliable, crystal-clear connectivity that will bring them closer together.

### ✔ Project-managed

CatonLloyd's professional remote working specialists take care of every aspect of your project from start to finish.

### ✔ Design to commission

Our complete services deliver a unique system, from design and specification through to installation and commission.

### ✔ Maintenance & aftercare

Beyond commission, CatonLloyd's specialist and regular aftercare keeps your system well-maintained and up-to-date.

## Video conferencing

Connect your business with up-to-the-minute video conferencing, microphone and camera systems. Supporting industry-leading platforms, multiple users enjoy highly reliable, crystal-clear audio and face-to-face communications wherever they choose to work.

## Meeting rooms

Sleek, fully-integrated and user-friendly meeting rooms which enable efficient collaboration. Building stronger internal and external connections, professional microphones, cameras and screens facilitate high-definition meetings and presentations for multiple users.

## Collaboration & presentation spaces

From small group working spaces to large 'town hall'-style conference and lecture theatres, CatonLloyd's video conferencing and presentation installations will immerse your people in engaging experiences, allowing them to work together from anywhere in the world.

## Digital signage

Versatile digital signage enables businesses to regularly change messages and communicate with colleagues. From business data to activity tracking, latest news and even dining menus for your catering services, digital signage is simple, economical and attracts attention.

## Training facilities

Keep skills up-to-date with fully-equipped virtual training suites accessible by anyone in your team. From small meeting rooms to dedicated presentation spaces, deliver online sessions in comfort with stable technology that records or broadcasts live according to your need.

## We design solutions for clients including:

- ✔ Technology
- ✔ Manufacturing
- ✔ Retail
- ✔ Pharmaceutical
